HD-GN Handle

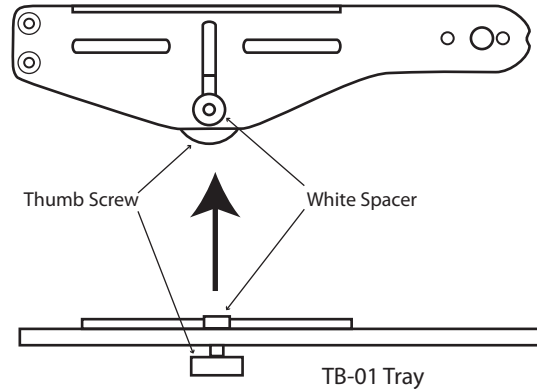

HB-01 or HB-05 Handle

ET-01 Tray Extension

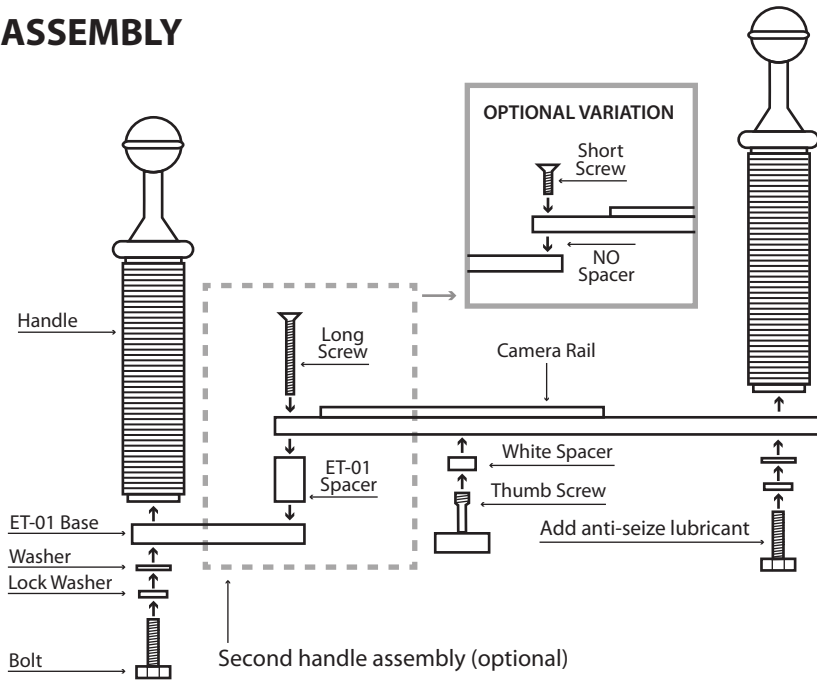

## PARTS - How they are shipped

(Your parts may vary)

TB-01 Tray

## ASSEMBLY

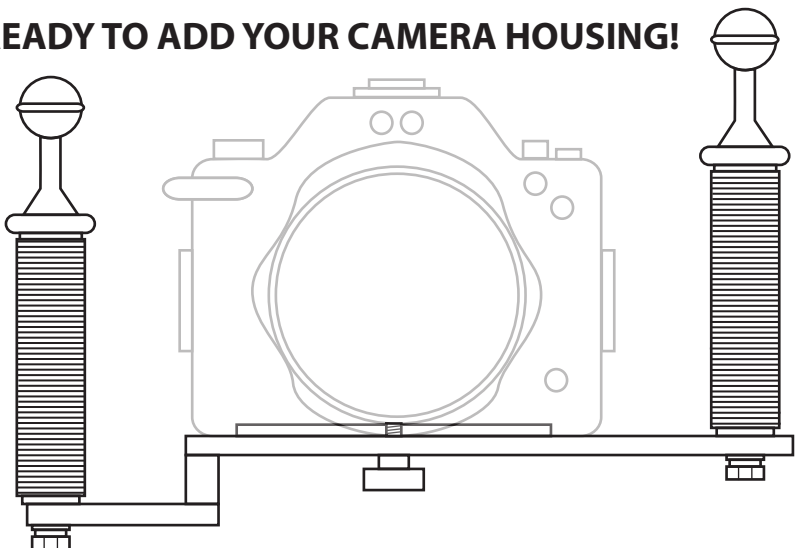

**Tools needed:**  
Phillips screwdriver & adjustable wrench.

Add anti-seize lubricant to all threads going into aluminum.

### Proper Camera Attachment:

1. Remove white spacer from the top of the Thumb Screw.
2. Slide Thumb Screw to the end of the slot and unthread from tray.
3. Screw the Thumb Screw into the White Spacer - then into the bottom of the tray.
4. Position the camera housing so that the back is against the Camera Rail and tighten.

## READY TO ADD YOUR CAMERA HOUSING!
